NOVEMBER 22nd, 1944

SIR,

Under instructions from my Government, I have the honour to refer to recent discussions with respect to the post-war disposition of defence projects, installations and facilities built or provided in Canada by the Government of the United States. This matter was the subject of a recommendation of the Canada-United States Permanent Joint Board on Defence, adopted on January 13, 1943, and subsequently embodied in an Exchange of Notes dated January 27, 1943.³

After further study, and in the light of experience in connection with specific agreements already reached, it appeared desirable to the Board to amend its earlier recommendation and to make the revised recommendation applicable to all projects, disposition of which remains unsettled. Accordingly, on September 7, 1944, the Board adopted the following recommendation:

"The Permanent Joint Board on Defence recommends that the following formula be applied to the disposition of all defence facilities constructed or provided in Canada by the United States (and *mutatis mutandis* to any defence facilities constructed or provided in the United States by Canada) which have not already been dealt with.
