International Acts Series 1732

AGREEMENT BETWEEN THE GOVERNMENT OF AUSTRALIA AND THE GOVERNMENT OF THE UNITED STATES OF AMERICA

The Government of Australia, in consideration of the transfer to the Government of Australia by the Government of the United States of America of certain air navigation, air communication and weather facilities situated at Eagle Farm and Amberley in the State of Queensland in Australia (in this Agreement referred to as "the facilities") agrees with the Government of the United States of America as follows.

I. To operate and maintain the facilities continuously in a manner adequate for the air traffic operating to and away from the Eagle Farm aerodrome and along the recognised international air routes converging on that aerodrome, and, to ensure this standard of service, to abide by approved Provisional International Civil Aviation Organisation standards of operation¹ unless and until those standards are changed by any other international agreement to which the Government of Australia and the Government of the United States are both parties.

II. To provide the full service of all facilities to all aircraft on a non-discriminatory basis with charges, if any, only for non-operational messages until an international agreement on charges has been promulgated by the Provisional International Civil Aviation Organisation.

III. To transmit weather reports as prescribed by the Weather Service of the United States to designated stations of the United States and to such other stations as are necessary to ensure an integrated meteorological network for international air-routes unless and until other provision is made by international agreement to which the Government of the United States is a party concerning civil and military meteorological requirements.

IV. To continue the operation of all types of facilities at their original locations or on new locations mutually agreed by the Government of Australia
